(V 4288—4301 = \$ 12056.38)

(And then the lights went out)

**New Business**

Justin Grillo has a cost share project. Nine acres outside of Waterville, it would be for erosion control, add biodiversity for wildlife (deer and birds) This has been reviewed by Bob Nansel, NRCS. Total project would be 1880.00. 75% would be 1410.00.

**Motion** to fund: Lindsay/Eileen/passed

Julie (Jo) Miller and Cynthia Kirkham are looking for assistance/funding for a project down in Palisades. Known as the Petrified Canyon the total parcel is 320 acres. 38 acres are currently in alfalfa, but most is shrub steppe. They would like to utilize the available water for wildlife and reestablish the natural habitat, which had been burned several years ago. Several contacts for them were suggested. We should observe the area and see if we can, in fact, help out. Maybe act as the contact for the project, as both Jo and Cindy live in the Seattle area. **Motion** to assist: Mike/Eileen/passed.

**NRCS Report** – Bob discussed several projects NRCS is currently working on. He had one Conservation Plan that was half in Foster Creek, half in South Douglas. Joe signed the plan.

**WCC Report** – Mike updated us on the current budget and calendar. South Douglas may be asked to host the WCC meeting in September 2020. It would probably be in East Wenatchee, but we will know more later.

**Old Business**

SD/FC MOU discussion. Still need finessing.
