

The Northern Arizona Association of REALTORS® is thrilled to announce a **FREE PROACTIVE SAFETY AND LEAD INTELLIGENCE** service for all NAAR members!

Quickly becoming the industry standard for safety and prospect intelligence, **FOREWARN** is a revolutionary application that allows agents to have instant due diligence on prospects. In seconds, with as little information as a phone number or name, NAAR members can verify a prospect's identity, criminal records, bankruptcies, liens, judgments, address history and property records all in one place, leading to safer and more productive interactions. This is not only critical for your personal safety and efficiency, but also a benefit to your listing home owners, providing an added layer of protection for their homes and families through your vetting of prospective buyers.

Searching FOREWARN in Seconds

- FOREWARN provides instant & mobile identity verification and public records (criminal, property, court, etc.) for over 98% of the U.S. adult population.
- With FOREWARN's roughly 90% coverage of mobile and residential phone numbers, you should be able to search and verify most people from their phone number alone.
- When you are unable find an individual in FOREWARN using a phone number, this does not necessarily mean fraud or criminal intent. FOREWARN users are encouraged to gather further details and use the additional search functionality (the "Search by name" link) within the FOREWARN app to ensure verification of the prospect.
- Name search tip: When searching by name, if there are more than 100 results to your query, FOREWARN will display "Too many records found" and prompt you to re-run your search using additional criteria.
- Phone search tip: If you search missed calls from telemarketing companies (typically they will not leave a voice message), you will get the result "Record not found" because that phone number has never been owned by, or associated with, a person.

IMPORTANT – COMPLIANCE:
